ADVANTAGES IN YOUR PARTNERSHIP WITH Logic IT Staff:

1. BEST PRODUCTS AT REASONABLE PRICES

   We create best quality products for a good price, due to the well-organized system of cooperation. Every product of Logic IT Staff benefits from our technical support in the future, so that you can always get free advice.

2. SAVE YOUR TIME AND NERVES

   Our experience in this sphere will help you save your time and protect you from stress. Through our 10 years' experience in the technologies mentioned we ensure the optimal balance of time, quality and cost.

3. INVEST IN THE FUTURE

   While ordering the product you can fix the price for further upgrades of your products. Any further upgrades of your products by Logic IT Staff can be achieved at special discount prices which can be fixed in advance.

4. QUALITY DEDICATED TEAM

   Offices in Eastern Europe are less expensive than the standard market price. You are free to opt for hiring a full or highly specialized dedicated team for Unity and Ruby on Rails projects that will let you save your money and expand the team's productivity while controlling the working process in any comfortable format for you, accommodating your schedule and language requirements.
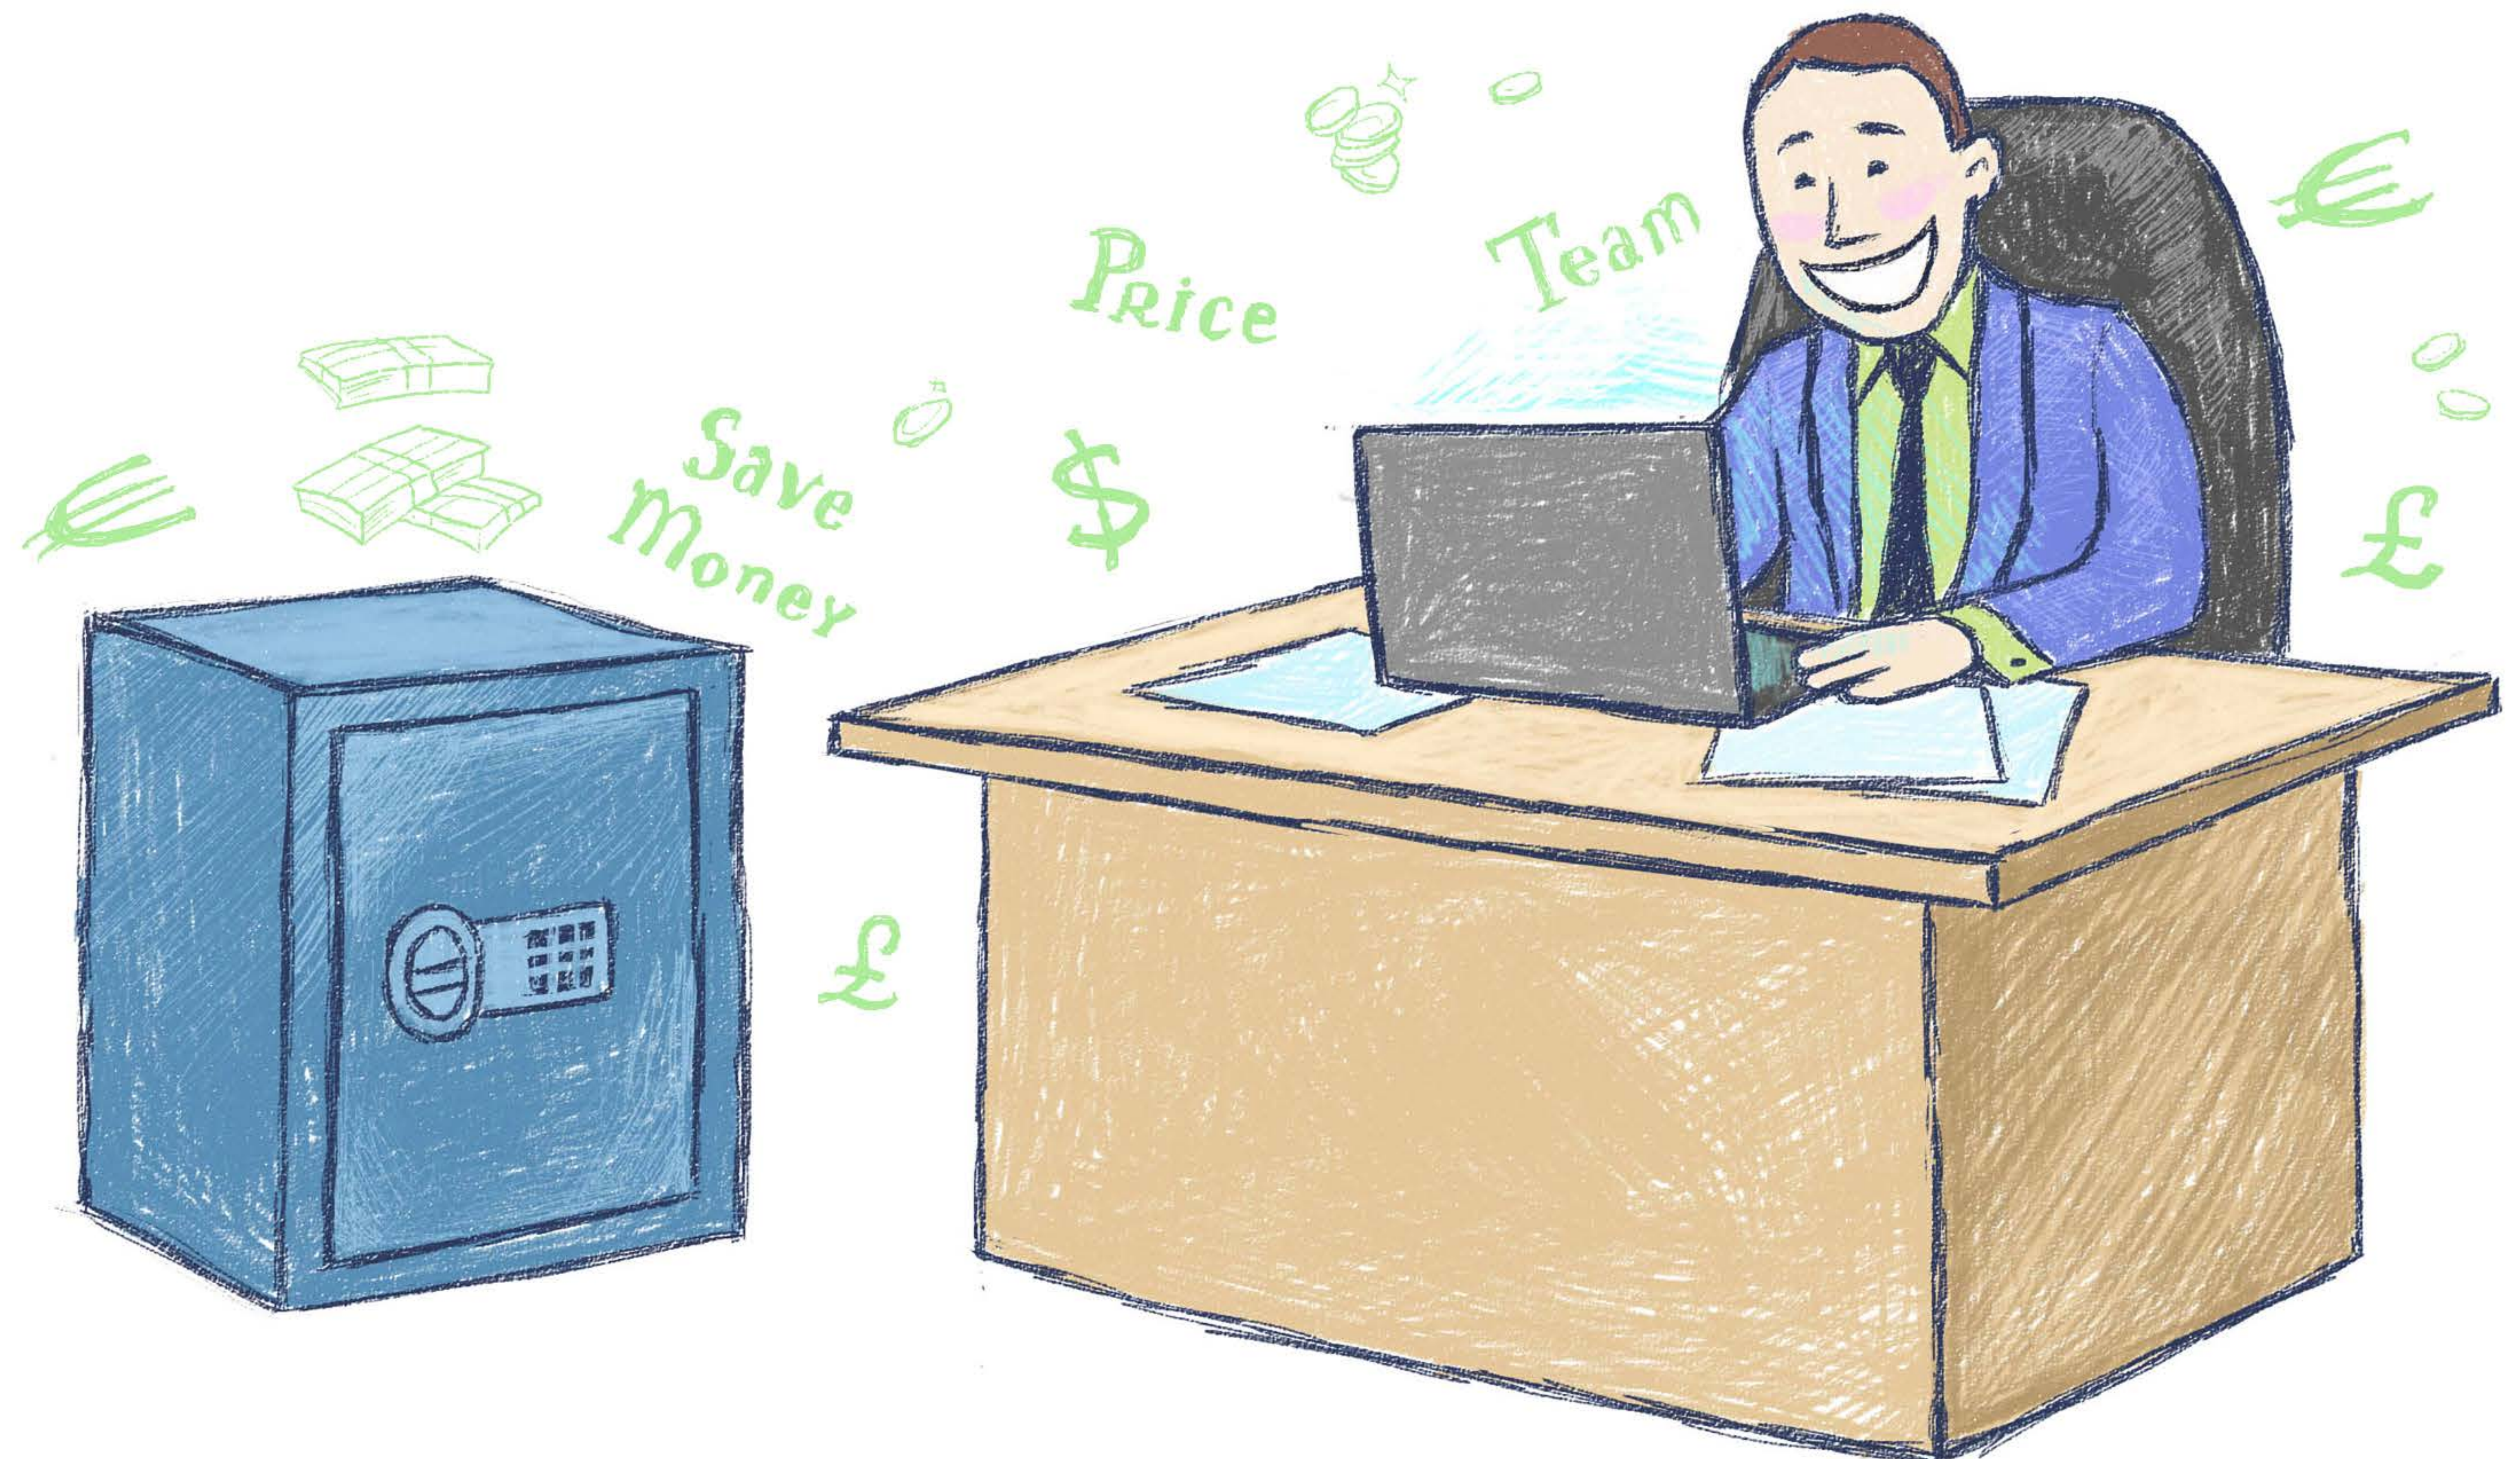

5. EXPAND YOUR BUSINESS

   Scale and develop your business by opening representative offices in Eastern Europe. We will assist you in opening your office in any country of Eastern Europe, we take care of all the papers and taxation and you do not need to pay the risky initial investment amount. For more information or questions please write us on office@logicitstaff.com.

QUALITY AND PRICE

Over 10 years' experience of our team and with back offices in Eastern Europe we guarantee the best quality at the optimal price.

EXPERIENCE OF OUR TEAM

Our team has experience in establishing and building the products of our own. We understand the whole process, we know how to take an idea and transform it into a product, and we know how to take the product and market it to the world.

Most of our projects are protected by NDA, therefore we are limited in sharing them to the public.
